### Key Findings

#### Housing
- **15%** of housing is subsidized
- **41%** of households rent their home
- **43%** of housing units are in multifamily buildings

#### Affordability
- **19%** of households spend between 30% and 50% of their income on housing
- **15%** of households spend more than half of their income on housing
- **$23.65** the hourly wage needed to afford a 2-bedroom apartment

#### Population
- **34** the median age of residents
- **43%** of residents are people of color (BIPOC)
- **+16.5%** projected population change from 2020 to 2040

### How to Read This Report
Throughout this report, a series of graphs like the one below are used to show how Manchester compares to other towns in the state on a variety of measures.

### About the Housing Data Profiles
The Partnership for Strong Communities’ Housing Data Profiles are a free resource to help Connecticut residents, developers, legislators, municipal officials, and others make data-informed decisions. Profiles are available for every town and county in the state. To learn more, please visit pschousing.org or housingprofiles.pschousing.org to view the interactive version of the profiles.

### Data Notes
Data comes from the 2014-2018 American Community Survey unless stated otherwise. Percentages may differ slightly or not sum to exactly 100% due to rounding.
Overall, 64% of Connecticut's occupied housing stock is comprised of single-family housing, while 35% is multifamily housing (2+ units in structure). Most single-family homes are occupied by homeowners, while most multifamily units are occupied by renters.

In Manchester, 57% of occupied homes are single-family, and 43% are multi-family. Owners live in 84% of Manchester's 14,533 single-family homes, and renters live in 78% of its 11,010 multifamily homes.

Growth is slow in the state, which has seen a 42% decrease in building permits between 1990 and 2017.

In Manchester, there were 111 building permits issued in 1990, compared to 23 issued in 2017, representing a 79% decrease.
### Units Built Before 1970

59%

Older homes are prone to falling into disrepair, and often carry environmental risks such as lead paint. An aging housing stock can be a sign of poor housing quality.

### Spending on Energy as Percent of Total Income

3.5%

Households that use electricity spend 3.2% of their income on energy (4.1% for fuel oil/coal and 3.1% for gas).

### Affordable Homes as a Share of All Housing Units

15%

The CT Department of Housing calculates the percentage of affordable units in a municipality annually for the Affordable Housing Appeals List. Affordable units are units that are subsidized below market-rate through programs like Housing Choice Vouchers or CHFA/USDA mortgages.

Of the 25,996 total units in Manchester, 3,809 are considered to be affordable.
PEOPLE BURDENED BY COST OF HOUSING

34%

Households that are cost-burdened spend more than 30% of their income on housing. Severely cost-burdened spend more than 50% on housing.

RENTERS BURDENED BY COST OF HOUSING

47%

OWNERS BURDENED BY COST OF HOUSING

27%

RENTERS’ HOUSING COSTS AS PERCENT OF INCOME

24%

OWNERS’ HOUSING COSTS AS PERCENT OF INCOME

17%
**Housing Wage**

**$23.65**

Each year, the National Low Income Housing Coalition calculates the “housing wage,” the hourly wage needed to afford a two-bedroom rental home without paying more than 30% of income on housing.

Manchester is included in the Hartford-West Hartford-East Hartford HMFA. Manchester’s housing wage is lower than the state housing wage of $26.42.

**Housing Preservation Units**

**12%**

Manchester has 1,739 federally assisted housing units, of which 12% are at risk of loss within the next 5 years.
TOTAL POPULATION

57,955

PEOPLE OF COLOR

43%

Connecticut population is becoming increasingly diverse, but the BIPOC population is concentrated in certain municipalities, especially Connecticut’s cities. In Manchester, 43% of residents are BIPOC, while 57% are white.

MEDIAN AGE

34

POPULATION CHANGE, 2020 TO 2040

+16.5%

In the next twenty years, Manchester’s population is projected to grow from 62,697 to 73,036.

People age 40-64 are projected to grow the most in the next 20 years in Manchester

Source: Connecticut Data Center
AVERAGE HOUSEHOLD SIZE

2.39

The average household size in Manchester has grown between 2000 and 2018.

Understanding who lives in our towns provides insight into the housing and service needs for each community such as accessibility, transportation, child care, and education. Compared to Connecticut, Manchester has fewer households with someone older than 60 and fewer households with school-age children.
